

OPERATING & SAFETY GUIDE

DOUBLE SINK UNIT

GENERAL SAFETY

Contact us for information and advice on the suitability and safety of this type of equipment.

There is a risk of injury if you do not follow the instructions printed in this guide.

This equipment should only be used by a competent adult who has read and understood these instructions. Anyone with a temporary or permanent disability should seek expert advice before using the equipment.

Keep all children, animals and bystanders away from the area of use. Never set up or use the sink unit if you are ill, tired or under the influence of alcohol or drugs.

Check the equipment before use, if it shows signs of damage or if any parts are missing, request a replacement.

OPERATING GUIDE

Position the sink unit on a level, stable surface, within fixing distance of hot and cold water supply and waste.

Position the sink unit well away from any electrical connections to eliminate any risk of electric shock.

The double sink is supplied with hot and cold taps fitted as standard.

The sink unit requires a 2 inch waste pipe connection.

Standard fit hot and cold water inlets (the same as used when plumbing in a washing machine) are required to be fitted.
